

Neel Patel

Bangalore | +91 7779034621 | neelx2107@gmail.com | linkedin.com/in/neelpatel2107 | neelpatel.vercel.app

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python, SQL

Frameworks & Libraries: Next.js, React Native, React, Expo, FastAPI, NestJS, Tailwind CSS

Others: PostgreSQL, Supabase, Prisma, Git, AWS (S3, EC2, ECS), Figma, Canva

WORK EXPERIENCE

SDE

Sarvam AI

June 2025 - Present

Bangalore

- Built an AI chat interface with a **WebSocket** streaming pipeline that renders tokens on screen in less than **200 ms**.
- Created internal component library with 1:1 mapping to Figma tokens via Figma MCP and Code Connect, reducing design-to-code variance to less than **2 px** on average.
- Designed and developed an Authoring UI with thoughtful UX that streamlined **debugging**, enabling the FDSE team to cut task graph configuration time from **1–2 days** to just a **few hours**.

SDE 1

FAE Bikes

May 2024 - June 2025

Bangalore

- Enhanced and launched the Retail App on the Play Store, revamping the UI/UX, improving performance, and implementing **deep linking** for seamless navigation from notifications and URLs. Driving annual transaction volumes of approximately **\$870,000** with over **1,500** monthly active users.
- Designed and built the Internal Operations App flows in React Native, supporting **20+** daily deployments and **55+** services with advanced features like in-app photo capture, video recording, **media compression**, and **PDF generation**. Enabled **role-based access** and automated operational workflows, increasing efficiency and oversight
- Led the development of advanced modules on the dashboard, including the Leads Management System, which boosted customer acquisition by **40%**. Independently handled **REST API** integrations, implemented job card management, and enforced access control by department and designation to improve transparency and productivity.
- Built the MVP of the Internal Operations App with features like **JWT auth**, **AWS S3** uploads, and media compression for efficient workflows.

Software Engineer Intern

Marketifyall

November 2023 – May 2024

Remote

- Developed a social media application with comprehensive features, including **real-time** chats with **read receipts** using Supabase, post interactions (likes, comments, shares), user management (blocking/unblocking), and optimized chat performance with best coding practices for minimal re-rendering.
- Created APIs to authorize various social media platforms, resulting in **automated** social media posts for users.
- Transitioned the Firebase backend of the mobile application to Supabase, leading to a significant decrease of **40%** in bandwidth utilization.

PROJECTS

Fluey AI | *React Native, Expo, TypeScript, Reanimated, Gemini*

[View Project](#)

- * Built a cross-platform AI-powered chat application with real-time conversational capabilities, integrating **Gemini**.
- * Implemented **markdown** parsing, **math expression** rendering via **SVG**, and animated text **streaming** for enhanced conversational UI.
- * Designed an intuitive, mobile-friendly UI with responsive layouts, custom navigation drawers, and polished animations using **Reanimated**.
- * Optimized performance for large message lists using **FlashList** and efficient state management for seamless, **lag-free** interactions.

HabitMates | *React Native, Expo, TypeScript, Supabase, Reanimated, Zustand*

[View Project](#)

- * Developed a feature-rich habit tracking app allowing users to create, monitor, and share personal habits with **real-time progress** updates.
- * Implemented advanced tracking features such as **streak counters**, habit completion **analytics**, and dynamic **heatmaps** to visualize consistency.
- * Built interactive, animated UI components with Reanimated and **Zustand**, ensuring responsive performance and state management across screens.
- * Integrated Supabase for backend services, enabling secure, scalable user **authentication** and **real-time** data synchronization.

EDUCATION

Gujarat Technological University

Bachelor of Engineering, Computer Engineering (CGPA: 8.39/10)

Ahmedabad

June 2019 – May 2023
